

## List of selected candidates for RAM TP 2019

### Instructions

Below is the list of selected students for **Raising a Mathematician Training Program 2019**.

If your name appears in the below list, you would have received an email on the email address that you mentioned in the student application (check your junk/spam/updates folder). If you have mentioned your teacher's email address in the form instead of yours, the email regarding the selection would have gone to your teacher's email address. Please ask them to give a print out of it to you and go through it. If you haven't received any email with regards to your selection by 31st January 2019 1:00 pm, send us an email to [raisingamathematician@gmail.com](mailto:raisingamathematician@gmail.com). Please do not call us with regards to the same. All communication in this regard needs to be through emails.

It is quite possible that your application was strong and still you didn't get selected. We trust you understand that it is a national level program and everyone who applied for it would have had very strong applications. However, we have a constraint on the number of participants that we can accommodate for the program. You can reapply next year if you haven't been selected. If you have any query, send us an email and we will respond.
